India and Germany collaborate to bring you a unique learning experience

**Innovation Management for Growth and Strategic Change**

"Because the purpose of business is to create a customer, the business enterprise has two and only two basic functions: Marketing and Innovation. Marketing and Innovation produce results; all the rest are costs" - Peter Drucker

The program commences on 23rd October 2017 at NMIMS campus, Bengaluru
Innovation is acknowledged as a key driver of growth. Yet, building right capabilities remains a challenge. Companies like Kodak and Nokia lost out on growth as they could not compete with new age companies, imbibing their culture and treading the path of Innovation.

SVKM’s Narsee Monjee Institute of Management Studies – Bengaluru (NMIMS) and Steinbeis Research Institute, Germany, both regarded as trusted names in Management Education and technology innovation respectively, bring you this collaborative program that is designed to help you take the innovation leap.

Data source: Hindustan Times
WHO WE ARE

SVKM's Narsee Monjee Institute of Management Studies (NMIMS) is one of the pioneers among private B-Schools in India with a rich 35 year legacy of sustained growth. In the best traditions of its parent brand, NMIMS Bengaluru, has during its 9 years of existence, carved a niche for itself in the management education space in the garden city. With over 500 full time and executive participants pursuing management studies, the talent needs of diverse sectors ranging from BFSI, IT/ITES and Media to Automobiles, Engineering, Healthcare and Start-ups are served by the Bengaluru campus. Analytics, Innovation and Infrastructure Management are the strategic differentiators of NMIMS Bengaluru. AMBA UK has accredited NMIMS Bengaluru, making it a member of an exclusive group of 247 institutions in the world and 10 in India. In 2016, Ed-Universal, France has ranked the PGDM and Executive PGDM Programs of NMIMS, Bengaluru 8th and 16th in Central Asia respectively.

Steinbeis is one of the world’s most successful providers of Innovation know-how and technology transfer. Central to all projects of Steinbeis is the success of its clients, co-workers and partners. The Steinbeis brand has stood for the successful transfer and sharing of know-how and technology for over 30 years. Steinbeis builds lasting bridges between the source of knowledge and the area of application. Steinbeis has developed into an international network spanning roughly 1,100 Transfer Centres. This network encompasses 6,000 experts, each contributing to the network with their specialist knowledge and working on individual challenges in interdisciplinary teams to genuinely add value and thus facilitate the success of Steinbeis.

Steinbeis offers technology and management competence from a single source across a unique spectrum of fields, making its services available to partners and clients of all sizes in all kinds of areas. In doing so, it acts as a troubleshooter or service provider in the fields of consulting, research and development, training and continuing professional development.
We are offering a unique 3 month certificate program titled “Innovation Management for Growth and Strategic Change” the first of its kind Indo-German collaboration.

**WHAT WE ARE OFFERING**

- 1. Ideation and Idea generation
- 2. Idea development (Product/Service/Business Model/Process)
- 3. Development of innovation idea
- 4. Technical/commercial feasibility
- 5. Implementation road map

**PROGRAM STRUCTURE**

- **Walk the Walk**
  Action Learning - Project Clinic
  (Off site Project implementation)

- **Virtual Support through Webinars**
  70 DAYS

- **Back to School**
  Class room Sessions and Deliberations
  15 DAYS

- **The Finish (or start!) Line**
  Project Presentation and Innovation Plan
  5 DAYS

70 DAYS
5 DAYS
15 DAYS
1. Demystifying Innovation: Basic Concepts

These sessions are to answer the questions “what is meant by innovation?” and “do we need to manage innovation?”. Further, these sessions are designed to lay foundations in innovation; we will explore the concepts of management fundamental to innovation, as a starting point for the rest of the themes.

2. Innovation – The Multi-Dimensional Perspective

We explore the various dimensions of innovation at a high level, before delving deep into each of the dimensions. What do customers really need? How can we approach innovation from all the perspectives/dimensions? The dimensions we explore are:

- Strategic Dimension of Innovation
- Marketing Dimension
- Technology Dimension
- Operations Dimension
- Financial Dimension
- People Dimension

3. How do we make the elephant dance? Innovation life cycle management process

Innovation is not an art, it is a capability. We will deep dive into the structured scientific approach to innovation from conceptualisation to implementation.

4. Walking the Walk – The Innovation Project

This is where the proverbial proof of the pudding is, where each of the participants will be required to work on a real project in their respective organizations. We will follow a “project clinic” approach. Each of the participants will have access to a comprehensive group of mentors and experts from NMIMS and Steinbeis, who will bring multidimensional perspectives. A streamlined and tested process of a combination of virtual and real interactions will be used to guide the participants throughout the project duration of 70 days.
**INDICATIVE PROGRAM OUTLINE**

- **Identification of Opportunities for Innovation**
  - Eco system for innovation
  - Environmental scanning- External and Internal including Science & Technology environment for business
  - Economics of innovation
  - Sources and network of innovation

- **Basic concepts of innovation and Innovation models**
  - Product innovation
  - Process innovation
  - Incremental vs radical innovation
  - Innovation models
  - Nuances of Disruption models

- **Strategic dimension of Innovation**
  - Competitive strategy
  - Business model innovation
  - Product strategy innovation
  - Leadership for strategic change

- **Marketing dimension of Innovation**
  - Online consumer research for innovation
  - Experiential marketing of innovation
  - Digital experience model
  - Diffusion of Innovation
  - Capturing value through Innovation

- **Technology dimension of Innovation**
  - Conceptual foundation of technology management
  - Linking technology strategy with business strategy
  - Technology acquisition
  - Technology marketing

- **Operations dimension of Innovation**
  - Product Process Matrix
  - Service process matrix
  - Supply Chain Innovation
  - Information systems innovation and design

- **Financial dimension of Innovation**
  - Valuation of Intellectual Property Rights (IPR)

- **Organisational dimension of Innovation**
  - Managing innovation as a process
  - People adaptability and culture for innovation
  - Managing change
  - Risk management
  - Managing Collaboration
  - Product Innovation and IPR

- **Innovation Project**
  - Innovation cycle & product development process
  - Initiation Analysis – S Curve
  - Simulation models

- **Design exercises**
  - **Stage-1** Creativity exercises, key activities in product development
  - **Stage-2** Product/ technology roadmaps
  - **Stage-3** Initiation and Analysis, Ideation and Idea Generation
  - **Stage-4** Design Idea
  - **Stage-5** Development of Innovation
THE TEAM

Lead Facilitator

Mr. George Villinger

Mr. George Villinger, after completing his studies in industrial engineering (Germany) and Business Administration (England) worked as Consultant at Steinbeis Transfer Center Production & Management, where he headed ERP projects. He leads the Steinbeis Competence Centre - Innovation & Implementation, since 1998. He also advises government organizations on national systems of innovation and technology transfer. Georg Villinger is a lecturer for “Strategic Management” at the International School of the University of Applied Sciences Offenburg and lecturer on “Business Planning” at the Steinbeis University Berlin.

Co Facilitators (alphabetical order)

Dr. Barnabas N

Dr. Barnabas teaches in the marketing area at NMIMS – Bengaluru. He has research interest in sustainability and services marketing.
